Investigating Committee.

The City Council discussed the question for two hours, last night, whether their honor and good name should be preserved by a rigid examination of the people's interest, or, as reflected from the people through the press, but, finally, they showed their good sense by appointing an Investigating Committee—Messrs. Dennis J. Toohy, Ezekiah Kierstead, Henry Mack, J. F. Cunningham and J. B. Davis, as a special committee of the City Council, are authorized to issue compulsory process for production of papers and attendance of witnesses to examine into the rumors current reflecting upon the integrity of some member or members of the City Council, in connection with privileges lately secured to street railroad companies.

Their meetings are to be held in the evening. We do not know that the influence alleged to have been secured by street railroad companies has resulted in any marked betrayal of the people's interest, for that happily was the special care of a few effective and determined men of positive influence in that body, who neutralized efforts that interested parties may have made, which if they had not been counteracted, would have had the tax-payers indignant. Beware of the encroachments of power and self-interest. Brave Councilmen, still keep a close watch of the rights of the people!

The Washington Park.

The unfinished and desolate appearance of the old Twelfth-street burying-ground, now, by courtesy, called "Washington Park," has caused us to inquire why it is unimproved. Five commissioners were appointed by the City Council, on the 25th of November, 1887, to take charge of the said grave-yard, with full power to make arrangements with the lot-holders for a release of the burial-places, and to take such steps as they may deem proper to convert the same into a public park. The committee consisted of Messrs. Kierstead, Bodley, Roelstorff, Ross and Townsend, who did a large amount of work, but, no new committee having been appointed, no work is now being done. We are sorry to learn that, with a full knowledge that the grounds are for a public park, some of our citizens owning vaults therein decline to remove the same until paid for the value of the improvements. They have been tendered an equal amount of grounds in the Spring Grove Cemetery, and the cost of removing all the remains of their deceased relatives, but decline the offer without compensation being added. The monuments are dilapidated and the graves are sunken in, and the apparent neglect of the grounds, we learn, is designed to test the respect lot-holders have for the graves of their kindred, now open to the tramp of cattle, &c. Let this tom-foolery be stopped; let the lot-holders come to terms, and let the grounds be improved, Messrs. Councilmen.

The Spring Grove Cemetery.

A law passed in 1845, authorizing the directors of the Spring Grove Cemetery to sell a front strip of these beautiful grounds, has occasioned some of our old citizens, who are quite sensitive about the sale of burial-places, to fear that some scheme was on foot—that there was some cat under the meal. Let their fears be dismissed; that provision was secured at the time when the railroad right-of-way was a bone of contention. The property is now under fence, built upon, and part of it is set out with a nursery.

Sale of the Covington and Lexington Railroad.

The sale of this road, to which we have previously referred, took place at Lexington, yesterday, and was knocked down to Mr. Gages, one of the present Board of Directors of the road, at two millions, one hundred and twenty-five thousand six hundred and eighty dollars and seventy-four cents. The decree under which the sale was made covers the first and second mortgage bonds, the preferred third mortgage bonds, and about one hundred and seventeen thousand income bonds. The terms of sale were twenty thousand dollars, or its equivalent, down, two hundred and sixty-eight thousand dollars in six, twelve and eighteen months, and the balance of payments covering a period of twenty-four years.

It was generally supposed that Mr. Gages was representing R. B. Bowles, of this city.

The People's Free Library.

The advantages of the people's free-circulating library, are not only for school children, but for every resident of the city who will comply with the rules adopted for safe return and prudent care of the books. The library now contains a large supply of very excellent books, particularly books of reference, and works on natural history, science and travels, which we recommend to young mechanics.

We specially ask the parents of this city to consider the ill-spent time of many boys running at will about the streets, forming dissipated habits, which should be spent in the reading-room of the common school library, or at home in good society, or reading good books, which can be obtained without cost at the Mechanics' Institute Library.

Editorial and Selected Melange.

Miller Greenwood was one of the purchasers at the great sale of machinery, locomotives, &c., held last week at Lawrence, Mass. The extent of sales was \$140,000.

The Cleveland and Erie Railroad Company have received from Patterson, N. J., a new style of locomotive, built on the English principle of a single pair of driving-wheels with a single pair of small wheels in front of them. A double pair of wheels behind supports the after-part of the engine and tender, the latter being on the same frame with the locomotive. The entire engine and tender is about the length of an ordinary locomotive without the tender. It is called the *Reindeer*. The locomotive was tested with some loaded cars, and found to work satisfactorily.

The subscription which was made in this county for the benefit of the Italian sufferers in the late war reached the sum of \$10,622.

Caloric engines have already been set to work in England and Ireland. In Sweden the new motor is in full operation. The one used in the Penny Press office is visited nightly by numerous men and women, who are well repaid for their visit.

E. E. Cross, formerly of this city, has arrived over land from Arizona.

A New Catholic Bishop for Mobile.—The Rev. John Quinlan, of Cincinnati, President of St. Mary's of the West, has been recognized at Rome as Bishop of the Diocese of Mobile, vacant by the death of Bishop Porter.

CHRISTIAN CONVENTION.—The Christian Brotherhood of the North-western States met in Convention at the Christian Chapel in Indianapolis, Indiana, on Tuesday, the first day of November next, at two o'clock P. M.

A special dispatch to the *Louisville Courier* announces that the connection pipe of the steamer *Hiawatha* burst on Tuesday, at Council Bend, on the Mississippi River. The steamer and one passenger were killed, and the stricken badly wounded. No other particulars.

A Vexed Question Settled.

Messrs. WEIDEMER & Co. have for a long time had claim against the city for damages amounting to \$15,000, alleged to have been caused by change of grade of Fifth-street, near Look-street. Last night an ordinance was passed appropriating to those gentlemen \$2,000—in full settlement for all claims accruing and to accrue from said change of grade.

The Tomb of Rachel.

The Hon. James Brooks, the senior editor of the *New York Express*, writes to that journal from the Holy Land:

Upon my return to Bethlehem, I rode by the tomb of Rachel—a small building with a whitened dome, and having within it a high, oblong monument, built of brick and stuccoed over. The spot is wild and solitary—and not a tree spreads its shade where rests the beautiful mother of Israel. Christian, Jew and Moslem all agree that this is just the spot where Rachel was buried, and all unite in honoring it. The Turks are anxious that their ashes may rest near her's, and hence their bodies have been strewn under tomb all around the simple grave of Rachel. The sweet domestic virtues of the good wife have won their love and admiration, at the tomb of Abraham, near the brook of Kedron, their detestation—upon the latter they throw a stone to mark their horror of the disobedient, while around the former they wish when they die their bodies may be interred. Nor is this wonderful. The wife, four hundred years of service as a shepherd, must have been worth having. The whole life of Rachel is, indeed, one of the most touching in Biblical history. The shepherdess has left her mark upon the memory of man, as well as her tomb. The tribute to her is the tribute to a good wife, and infidel, and Jew, and Christian all combine to pay it. The great women of the earth—the Zenobias and Cleopatras, have died, been buried, and their very place of burial been forgotten—but to this day, stands over the grave of Rachel, not the pillar Jacob set up, but a modern monument in its place, around which pilgrims from every land under the sun gather in respect and reverence for the faithful wife and good mother in Israel.

Frogs in the Stomach.

We find the following in the *Baltimore Clipper* of recent date:

One of the most remarkable physiological facts known in medical history, has recently developed itself in the case of a son of Mr. Chas. Davis, of this city, who resides at the corner of Little Montgomery and Fremont streets. The boy alluded to is about eleven years old, and for a long time has been a sufferer from spasms and severe choking spells, which no physician seemed able to account for. Everything promising relief was resorted to, and indeed a small fortune was spent for expectorants and other medicines, but with no result of any avail. The boy grew no better, and remained a puzzle to everybody until a week or two ago, when, from a violent retch, a curious looking living frog was thrown from his stomach. The boy, however, experienced but little relief from this ejection, and still continues to gasp and choke and retch, as though he was possessed up to the mouth with similar animal.

To test from a very minute examination of the creature thus thrown up, we doubt whether it really is a frog. It looks to us more like a reptile—a sort of lizard—though, unlike a lizard, it has no tail. It is about an inch long, a half-inch broad, has a yellow belly, and what is more singular than all, two long black hairs growing upward from its shanks toward its head, in the form of a V. Mr. Davis informs us that the boy has an exceedingly unnatural appetite. He devours everything in the shape of food that he can lay his hands upon, with the voracity of a wolf, and never appears to have enough. How he thus became possessed is a mystery. The spawn of a frog may have been drunk into the stomach with water, but this is only conjecture. Mr. Davis, himself, is disposed to ascribe the matter to evil influences as exerted by conjurers, but such an explanation as that is scarcely worth mentioning. Mr. Davis, who was once wealthy, by this affliction in his family, has been reduced to poverty.

On the 1st ult., the tomb of Charles XII was opened in the presence of the King of Sweden, Prince Oscar, and others, by Professor Fryxell, the Swedish historian. This was done to set at rest the stories which have been afloat about the manner of his death especially that of assassination. From an examination of the body it was determined that death was caused by a large projectile, which entered the left temple and came out through the right. As Charles was in the trenches before Fredericksburg when he fell, with his left side turned toward the enemy, this discovery must, at least, very much reduce the probabilities of assassination.

Escaped FROM THE PENITENTIARY.—ONE HERBERT DAVIS, REWARD.—On Tuesday, about nine o'clock, a prisoner named William S. Happe escaped from the Frankfort (Ky.) Penitentiary. He was about five feet five inches in height; weight about one hundred and fifty pounds; had blue eyes and dark hair; had a small scar under left breast; one above right temple, and one on the left foot, under the ankle. A reward of \$100 is offered for his apprehension.

LATEST BY TELEGRAPH.

REPORTED FOR THE PENNY PRESS.

From Washington.

WASHINGTON, October 5. On the recent reception of the new Brazilian Minister by the President, the latter took occasion to express the hope that the Brazilian Government would still further remove the restriction on our commerce with that country. A private letter from Arizona, dated the 14th ult., says that the Apaches are getting bolder, and we have almost the usual murders and fights.

The vote of the recent election for delegate to Congress exceeded two thousand. Only about one sixth of the voters participated in the New Mexican election.

But little information has been received in official quarters in addition to what was telegraphed yesterday relative to the filibuster movements. As to the reported departure of a party of filibusters, the only authentic account in the possession of the Government is that they left in a tug-boat, about ten miles from New Orleans, but which could not convey them to their place of destination. They doubtless expected to be taken on board a larger and more suitable steamer.

In the mean time Collector Hatch and his deputies and other Federal officers are, according to their instructions, resorting to every legitimate means to intercept the filibusters. In addition to other measures, vessels have been dispatched for that purpose.

While these things are progressing in New Orleans, information has been received that a number of filibusters are in Mobile, some of whom were prominent in the Spanish-American expedition, which vessel it will be remembered was wrecked at Glover's Reef. The Federal officers there have been instructed to watch their movements, and act accordingly. It is not yet considered necessary to send out any new instructions to our naval forces in the Gulf and Pacific, as the vessels now there are in possession of the orders heretofore issued in relation to these unlawful expeditions.

The success of this new filibustering movement is not considered in the least degree promising, but should the adventurers invade Nicaragua and interrupt the transit, there is reason to believe that our Federal forces would promptly interfere. The power is found in the Lamer-Zeladen treaty, and to its exercise Nicaragua would have no objections.

H. G. Faut, who has been adjusting the two per cent. fund account on behalf of the commissioners of Missouri, has been officially informed by the acting commissioners of the General Land-office, that there is due to the said State on that account \$347,500.

General Jeap is still confined to his house by serious illness.

New York Financial Matters.

NEW YORK, October 5. Stocks are much depressed, and prices have touched still lower points. The heaviest fall is in those speculative stocks which attracted the most attention in the recent upward movement.

Business in New York Central continues large, principally for cash, the aggregate sales reaching 6,500 shares. Pacific Mail underwent a fall of 4 1/2 per cent., falling as low as 75c. The latest information in regard to the mail contract is that Johnson and his agent, Mr. Sloo, confess their inability to get the mail through, which, of course, is a virtual failure of contract, and the probability is that Vanderbilt's line will perform the service for the next nine months. Johnson's success is, however, still doubtful with the Department.

The Western States show an average of 1 per cent. with free sales. Illinois was steadiest of the Western list, closing at 66 1/2 @ 66 3/4. On the Bond and State stock list there were no important changes. Money is active at full rates.

The West is looking heavily upon the banks at present, and the indications are that full rates will be maintained for the next fortnight, or at least till the marketing of the produce in turn produces the usual relaxation, which follows the process of liquidation. The bulk of the business on call is at 6 1/2 @ 7, with exceptional transactions at 6 per cent. Long Paper is plenty and must undergo a stricter classification. Four months bills, gilt edge, go at 7 1/2 @ 7 3/4, and six months at 7 1/2 @ 8.

In Foreign Exchanges nothing of moment doing, and Sterling closed dull at 110 1/2 @ 110 3/4. There are few engagements of specie in the Saturday steamer. The shipment will be about \$750,000 or a million.

Between the Bonds stocks were lower, and a moderate panic was shown in New York Central, which sold as low as 77 1/2. The report was current that fresh certificates from Albany, to the extent of 2,700 shares, had made their appearance, all belonging to a single family. There are large contracts falling due to-morrow, and a lower market would not be a surprise to many.

At the Second Board, United States Five of 1874 fell 1/4; Tennessee Sixes rose 1/4; Erie Fifth Mortgage sold at 30; Pacific Mail fell 1/4; New York Central opened at 78 1/2, and closed at 78 1/2, a fall of 1/4, with abusiness of three hundred and twenty-five shares; Illinois Central rose 1/4; Michigan Central 1/4; do. Southern (preferred) fell 1/4; Cleveland and Toledo 1/4, and Rock Island 1/4, after selling down to 64.

The Erie Road paid, through its Receiver, in September, \$38,320 33, which was paid for labor \$32,488 73. The receipts of the road were, from all sources, \$621,038 67.

The Cricket Match.

NEW YORK, October 5. The match at Hoboken was resumed this morning. The play on the part of the Americans was very good, while that of the all England eleven was splendid. The latter won the match in one inning and had sixty-four runs to spare.

The following is the balance of the Americans' second innings made to-day:

Head, c. Lockyer, 5; Wright, 1; Wisden, 3; J. Walker, 1; W. C. W. Crisley, 1; Carpenter, 6; Coffin, 4; W. Correy, 1; L. Coffin, 1; L. Lillywhite, c. Lockyer, 6; Coffin, 1; L. R. Page, (not out); leg-byes, &c., 2; runs made yesterday, 35. Total Americans' second innings 54.

Episcopal Convention.

RICHMOND, October 5. The delegates to the General Convention of the Protestant Episcopal Church assembled this morning, and after a sermon by Bishop O'Connell, of Tennessee, the House of Clerical and Lay Delegates was organized by the election of Rev. Dr. Croighton, of New York, President, and Rev. Dr. Howe, Secretary. The House of Bishops will meet to-morrow. The House of Bishops was also organized, the Right Rev. Bishop Meade presiding by seniority. Rev. Dr. Bullock, of Maryland was chosen Secretary.

From New York.

The death sentence passed on James Stephens, the wife-poisoner, was affirmed to-day by the Court of Appeals, while the same Court reversed the sentence of James Shephard, condemned to death for murder and arson.

Georgia Election.

ATLANTA, October 5. The Third Congressional District is conceded to the Opposition.

River News.

PITTSBURGH, October 5.—P. M. No change in the river since noon. Weather cloudy.

LOUISVILLE, October 5.—P. M. River stationary, with four feet seven inches in the canal.

Movements of the President.

BALTIMORE, October 5. President Buchanan arrived last night and left by the Baltimore and Annapolis Railroad this morning for Wheeland.

NEWS AND GOSSIP.

A new county in Indiana is talked of, to be formed out of the counties of La Porte and Porter, and Westville or Michigan City as county seat.

Love is expected to number, in the census of 1890, a population of seven hundred thousand, and, by apportionment, in ten years, to secure ten instead of two members of Congress.

Rev. O. W. Briggs, the late pastor of the First Baptist Church, Brooklyn, delivered on Sunday, October 2, to his late charge, two sermons of unusual force and fervor. He goes to Rock Island, Illinois.

The great fight between Australian Kelly and Ned Price comes off to-day, near Buffalo. Price is to be seconded by John C. Heenan, the Benito Boy, and Kelly by Harry Gribbin and Jim Massey. To avoid loss of time and disputes at the ring, a referee is to be selected before leaving Buffalo.

As we learn from an exchange, a lady at Salem, O., has recovered a verdict of \$500 against the Cleveland, Columbus and Cincinnati Railroad Company, as damages for having been ejected from the cars. Getting on board the train at Crestline, she offered the conductor a regular \$1 bill in payment of fare, but he refused to take it. Having no other money, she was put off the train in a rain storm, half a mile from the station. The bill was proved to be good, and the jury rendered a verdict in favor of plaintiff.
